Accelerate 2019: Foldable PCs, AR Headsets, and More

17 May 2019

The happiest place on Earth just experienced a massive influx of visionary tech as more than 1,000 people attended Lenovo Accelerate. For three packed days, folks in Orlando focused more on next-gen innovation than the ship behind the Kessel Run or choosing their wizard wands (at least openly).

We announced new devices — from a fits-in-your pocket PC to an enterprise-ready AR headset — and led sessions with leaders from Intel, Microsoft, and other partners who are shaping the future of business. We also went beyond the devices and took a critical look at the state of diversity in tech.

The most jaw-dropping moment was almost certainly the announcement of the world's first foldable PC.
