# Infographic: Technology is the Catalyst for Inclusion

15 November 2018

Lenovo is harnessing the power of technology to create products and solutions for people around the world. As our devices become increasingly intelligent, we must innovate with diversity in mind to create a truly global customer experience. Our culture employs a unique blend of talent from a variety of genders, orientations, nationalities, and ethnicities that are reflective of the world we serve.

Check out the infographic below (download here), view our full Diversity & Inclusion report, and learn more about how essential inclusion is to Lenovo's future.
