FOR UNRIVALED USER EXPERIENCE

MULTITASKING MADE SMARTER

More Interactive. More Responsive: the E-ink display is now revamped so you can get more done. Read, browse, view presentations, or just glide through your notes with ease.

Top Cover That Saves You Time: calls and meetings need better documentation—do it without opening the lid. The 16:10 E-ink display on the A-cover is a 12-inch touchscreen panel, an improved version of its predecessor's 10.8-inch top-cover display. A 68% screen-to-body ratio gives more viewing area and lets you conveniently write or annotate.

Smart Info: view calendar invites, email, news, weather, and reminders in one glance on your outer screen. Stay notified and respond without losing any crucial info or upcoming events.

Work Without Opening the Lid: the E-ink display has been optimized to provide a variety of functions. Review and annotate presentations or word documents in MS Office, take notes during meetings, or even use it as a drawing board for quick edits, all on the top-cover of your PC.

TOP-NOTCH PERFORMER

Intelligent Computing: with the 11th Gen Intel® Core™ i processors enhanced by AI-based technology along with the Intel® Evo™ 3 platform delivering unrelenting performance.

Faster, Smoother Processing: speed up your everyday tasks with up to 16GB dual-channel LPDDR4x memory and up to 1TB Gen4 SSD that let you open, run, and render applications without a hitch.

Smartphone-like UI: battery, date, time, and network are also displayed on the status bar of your E-ink screen. The Floating Action button refreshes your screen or changes display modes. While the Touch Home Button takes you back to the Home page.

Security Delivered with dTPM 2.0: data safety is crucial for any business and discrete trusted platform module (dTPM) encryption and Windows 10 security features on Lenovo ThinkBook Plus Gen 2 ensure that it is not tampered with.

ADAPTS TO YOUR WORK STYLE

Two Screens in One Body: your office is where you are. At just 13.9mm and weighing less than 1.3kg, Lenovo ThinkBook Plus Gen 2 is an ultra-portable dual-screen package that does not compromise compactness for features.

Keeps Company from Sunup to Sundown: with the E-ink screen in use, you barely need the charger. The PC runs for a good 24hrs¹ while you use the E-ink screen and up to 15hrs¹ on the main display.

Smart Power Button: start your PC with just a touch. Smart Power On lets you power on and unlock the PC with your fingerprint in one step—like a smartphone.

Convenience at Hand: ThinkShutter provides camera privacy with the flick of the camera cover. Ambient Light Sensor (ALS) detects background light to adjust the display brightness and keyboard backlight so you can work comfortably under dim or bright light conditions.

Works Silently: Lenovo ThinkBook Plus Gen 2 is quieter than its Gen 1 counterpart—with one less fan encased in its chassis along with ITS 5.0 technology that improves the thermal performance.

VERSATILITY FOR ALL USER TYPES

Two Is Better Than One: this second generation ThinkBook Plus offers double the benefit with two USB Type-C ports with the latest Thunderbolt™ 4 technology. Now daisy-chain multiple monitors, charge your devices, and transfer data, all at blazingly-fast speeds.

Impeccable Audiovisuals: the Lenovo ThinkBook Plus Gen 2 is equipped with the perfect pair of Dolby® features. Engage in VoIP meetings with the surround sound of Dolby® Atmos™ on Harman Kardon speakers. An upgrade from FHD to WQXGA resolution with Dolby® Vision™ support is a treat for the eyes every time you open your PC.

Wider, Vibrant Display: get more screen real estate and rich visuals in a small form factor. Work on its 13.3-inch, narrow bezel, LCD panel with 400nits brightness while enjoying a 16:10 aspect ratio with >90% STBR. Moreover, a Low Blue Light certified screen ensures eye protection.

Park Your Pen: interact better with your E-ink screen with the improved garage pen. It can be docked and charged inside the PC and auto-launches the Fast Note application when taken out.

¹Based on testing with MobileMark 2014. Battery life varies significantly with settings, usage, and other factors.

RECOMMENDED ACCESSORIES

ThinkBook Plus

Lenovo

LENOVO CHARGING MAT

Fast, convenient, and powered by contact technology, the Lenovo Charging Mat makes for an excellent companion on the go. Declutter your desk space just by placing your PC on its silicon-finished surface. It comes with a USB Type-C port for charging and can be slipped into your laptop bag when moving around.

THINKBOOK BLUETOOTH SILENT MOUSE

PN: 4Y50X888XX

This tiny accessory will be the companion your PC deserves. Modern, low profile, ambidextrous design with silent buttons makes it a premium peripheral you won't want to let go of. Get more precision and control with dual-host Bluetooth connectivity (with Microsoft SwiftPair) and 2-way scroll with on-the-fly DPI adjustment to up to 2400. Equipped with a blue optical sensor with track-on-glass compatibility, the mouse works on any glossy surface.

LENOVO USB-C 3-IN-1 HUB

PN: GX90T33021

The 3-in-1 hub is a handy and portable extension for your ultra-light PC. Connect to external displays and USB devices with its USB Type-C port. Sleek, compact, and weighing just 38gm, it fits right into your pocket so you can carry it around without a hassle.
