

ThinkVision T24m

Exceptional Display Performance. Extended Capabilities.

POWERING WORKDAY WITH EFFECTUAL DISPLAY PERFORMANCE

A monitor that's more than just another screen, ThinkVision T24m-20 renders easy connectivity and manageability to businesses. Enjoy the generous screen space of 23.8 inches on this FHD In-Plane Switching panel. With 3-side NearEdgeless bezels and daisy-chaining capability via the DP-out port, enjoy an unrestricted view and multitasking in a multi-monitor setup. It is equipped with USB Type-C¹ technology that provides rapid transfer speeds via a one-cable solution. For secure and reliable connectivity and remote management, an Ethernet port let's user work uninterrupted. Ergonomic features with a clutter-free, space-saving design can't go unnoticed on the T24m, which makes for a comfortable work experience wherever the users are. With sustainable packaging using pulp cushion, the T24m monitor remains environmentally friendly throughout its life-cycle.

Lenovo

FEATURES OF THINKVISION T24m-20 MONITOR

Daisy chain for a multiple-monitor setup

Optimized for Efficient Multitasking

Clear visuals and consistent colors are what users get to see on its 1920 x 1080 FHD resolution display. An In-Plane Switching panel provides a wide-viewing angle (up to 178°) for a comfortable and distortion-free view. 3-side NearEdgeless bezels ensure a seamless multitasking experience when daisy-chaining multiple screens for an expanded display setup. When multiple devices are plugged into the monitor like a tablet, a laptop, or any other USB-powered peripheral, Smart Power² function dynamically detects and optimizes the distribution of power.

User Convenience and Comfort

ThinkVision T24m adjusts to users' workstyle—its ergonomic stand offers increased lift range and tilt angle with a design that keeps wobble to a minimum. Its square base occupies comparatively lesser desk space and also comes with a phone holder for added convenience—making it the perfect display for offices with limited workspace. Cable management keeps the clutter in check, enabling a minimalist and clean workspace. Lenovo ThinkColour³, an exclusive Lenovo software, offers access to advanced display settings with a simple and snappy user interface.

Connectivity That Adapts to Business Needs

Full-function USB Type-C port provides single-cable connectivity to transfer data, video, audio, and power. The mirrored power button feature allows T24m-20 to mirror monitor's power key to ThinkPad[®] or ThinkCentre Nano[®] 's power key when connected via the USB Type-C port. The Ethernet port (RJ45) offers fast and secure remote management with PXE, WOL, and Mac Address Pass Through (MAPT) support. USB Type-C¹ solution with DP out provides simple and clean desk space for users who need a multi-screen setup. Additionally, this docking monitor with USB Type-C¹, HDMI, and DisplayPort offers a multitude of connectivity options.

^{*}On selected models only

¹USB Type-C^{*} and USB-C^{*} are registered trademarks of USB Implementers Forum.

²The Smart Power function intelligently detects overall power consumption and dynamically manages the power delivery to each device. Up to 90W power delivery to compatible devices by USB Type-C, typical power delivery is 65W.

³This software can only be used with Windows 10.

⁴Listed as maximum capacity of power delivery. Actual capacity of power delivery may vary depending upon devices connected or monitor configuration, and may decline with downstream USB ports connected or higher brightness setting.
