The Lenovo Yoga™ 9i, features the world’s first Bowers & Wilkins speaker system on a laptop optimized by Dolby Atmos® offering unparalleled entertainment powered by the advanced 12th Generation Intel® Core™ processor. Featuring four modes, the Yoga 9i is crafted to merge comfort and aesthetics with rounded edges that allow you to grip, carry or use for longer complimenting the extended battery life and its versatility with smart features such as the 1-Click Function keys and Windows Hello on a FHD IR hybrid camera.

WHY YOU SHOULD BUY THE LENOVO YOGA 9i (14”, 7)

Aesthetic excellence, curved comfort, humanized design.

Aesthetic excellence meets ergonomic well-being on the Yoga 9i’s comfort edge design, wrapped in a smooth and sexy, rounded finish with premium unibody detailing ensures you can grip, carry, and use the laptop for longer periods of time in any mode.

A sight and sound to behold

Experience entertainment the way it was intended with the first ever Bowers & Wilkins class-leading audio performance speakers optimized by Dolby Atmos® on a 360-degree rotating soundbar delivering true-to-life sound with an up-to 4K OLED display featuring VESA DisplayHDR™ certification and Dolby Vision® offering darker darks and lighter brights.

Form and functionality. Ultimate versatility.

Fully optimize your Yoga experience with features like the 1-click function keys, a larger touchpad with more clickable area and a 16:10 aspect ratio optimizing your screen’s usable space and touchscreen functionality, or perfect for the full-size stylus pen with tilt capabilities. Additional I/O ports including 2 x Thunderbolt™ 4.0, and SD Card Reader opening a whole new world of productivity making the most out of your convertible with Windows 11.

Natural and intuitive

The Yoga 9i’s newly integrated FHD IR Hybrid Webcam with privacy shutter and facial login keeps things simple and secure while Smart Power supports better battery optimization and thermals with up to 28W TDP keeping your system cool + reduced fan noise for quieter use. The addition of Hardware-based Low Blue Light just means we have taken smart to the level of care.

DELIVERING SUPERIOR PERFORMANCE.

Take a revolutionary leap into real-world hybrid performance with 12th Generation Intel® Core™, an innovative design that distributes processing power to where you need it most. From streaming to browsing to photo and video editing and more — experience the performance boost you need for your biggest breakthroughs.

Lenovo and Intel are currently targeting verification of the Yoga 9i. Veriﬁed, measured and tested against a premium speciﬁcation and Key Experience Indicators as part of Intel’s laptop innovation program Project Athena. Testing results do not guarantee individual laptop performance. Power and performance vary by use, conﬁguration and other factors. For more complete information about performance and benchmark results, visit Intel.com/Evo.

**SPECIFICATION CHART**

**FAQ**
Q: What is the maximum capacity of the battery?
A: The maximum capacity of the battery will decrease with time and use.

**NOTES**
1. All battery life claims are approximate and based on two methods of testing: MobileMark® 2018 battery life benchmark and continuous 1080p video playback on the latest update of Windows 10 (with 150nits brightness and default volume level). Actual battery life will vary and depends on many factors such as product configuration and usage, software use, wireless functionality, power management settings, and screen brightness. The maximum capacity of the battery will decrease with time and use.
2. Local video playback @ (FHD) 150 nits.
3. Available in select markets.
4. The actual transfer speed of the USB 3.2 will vary and, depending on many factors, such as the processing capability of host and peripheral devices, file attributes and other factors related to system configuration and your operating environment, will be slower than a speed of 20 Gbit/s.
