ThinkVision M14d Mobile Monitor

Stunning visual performance on the go.

The light and portable mobile monitor for those going places.

Today’s professionals want to make the most of their time - whether you are traveling, waiting at airport lounges, meeting clients in hotel lobbies, making presentations, or closing a big deal, you live life on the go. And ThinkVision M14d Mobile Monitor is a brilliant solution to your long-felt need. With the ThinkVision M14d Mobile Monitor, you actually have a fully functional and practical second screen that hooks up to your notebook easily. The ThinkVision M14d Mobile Monitor, with its super-slim and light form factor, is designed to make even complicated data work easy, on the go. Its 14-inch screen, 16:10 aspect ratio (compared with traditional 16:9 aspect ratio, 14-inch screen is adding the 5.64% active area), 188 PPI (an increase in 19.9% pixels than FHD screen), 2240 x 1400 resolution screen with 100% sRGB ensures rich, clear imagery and true-to-life colors. This mobile monitor comes with two Type-C ports for quick upstream and downstream connectivity, allowing you to connect your notebook effortlessly. In addition, the Type-C ports have the ‘power pass-through’ feature that allows you to power the monitor and charges your notebook simultaneously. The mobile monitor also has the Natural Low Blue Light technology which reduces the harmful blue light to make viewing a comfortable and stress-free experience without color distortion. ThinkVision M14d – the slim and smart monitor that makes you more productive, even when you are on the move.
