ThinkPad T14s Gen 3

Thinner, lighter, and redesigned with a 16:10 aspect ratio display and up to 86% screen-to-body ratio for a fuller view, the refined ThinkPad T14s Gen 3 combines mobility and performance for ultimate productivity and sustainability in today’s hybrid work environment.

Built on Intel vPro®, an Intel® Evo™ Design with 12th Gen Intel® Core™ i7 processor with Intel® Iris® Xe graphics and new, faster LPDDR5 memory, ThinkPad T14s Gen 3 speeds through any task with efficiency and confidence. Users can expect a better audio/visual experience, too, with a new OLED display option, FHD RGB camera option, Dolby® Voice technology, and Eyesafe® technology to alleviate eye fatigue.

Industry-leading ThinkPad and ThinkShield security features, like voice recognition, Power-On Touch Fingerprint Reader, privacy shutter, and human presence detection, combine with Intel vPro® platform hardware-based PC protection to secure data and devices around the clock.
ThinkPad T14s Gen 3 i

PORTABLE PERFORMANCE
Even at less than 16.6 mm thin and starting at less than 3 pounds weight, ThinkPad T14s Gen 3 i packs a lot of performance into a slim form factor thanks to the Intel vPro®, an Intel® Evo™ Design with 12th Gen Intel® Core™ i7 processor. Faster LPDDR5 memory, ample Gen 4 performance PCIe storage, plus powerful Intel® Iris® Xe graphics further drive the enterprise-level performance that today’s users demand.

ENHANCED PRODUCTIVITY
With display options that range up to 2.8K OLED with Dolby® Vision™ and Eyesafe® low blue light technology, all the displays for ThinkPad T14s Gen 3 i have been redesigned with a 16:10 aspect ratio and expanded vertical screen real estate for improved productivity. An optional FHD camera with wider scope, impressive Dolby® Audio™ Speaker System, and new Dolby® Voice AI noise suppression technology enable ThinkPad T14s Gen 3 i to deliver an even more immersive videoconferencing experience.

EVERYWHERE CONNECTIVITY
Along with an expansive array of ports that include Thunderbolt™ 4 and HDMI 2.0b, ThinkPad T14s Gen 3 i also gives users multiple options for lightning-fast Gigabit Internet connectivity on-the-go thanks to new Intel® Wi-Fi 6E, 4G LTE CAT16, and optional 5G sub-6 CAT20 WWAN capabilities.

SMARTER SECURITY
This secured-core PC features ThinkShield security solutions and Intel® Hardware Shield, available exclusively on the Intel vPro® platform, for comprehensive hardware-based security for business. A built-in webcam privacy shutter and Power-On Touch Fingerprint Reader, plus options like human presence detection and PrivacyGuard display, protect users, data, and their devices.

sustainability
The ThinkPad T14s Gen 3 i uses 90% recycled and/or sustainable packaging1, as well as PCC recycled material for the battery brackets, speaker enclosures, and AC adaptors. All Lenovo devices are manufactured using low-temperature solder for reduced emissions. And by 2025, Lenovo aims to obtain 90% of electricity for global operations from renewable sources and remove one million tons of greenhouse gas emissions from the supply chain.

power
ThinkPad T14s Gen 3 i is truly designed for high performance with a sub-3-pound form factor that still boasts a 57 Whr battery.

wellness
Many of the new 16:10 aspect display options for ThinkPad T14s Gen 3 i also feature Eyesafe® technology to help reduce eye fatigue.

1Product packaging shall contain, on average, a minimum total percentage of 90% by weight of any combination of the following materials: Recycled content, biobased plastic, non-wood biobased fiber material, and/or sustainably forested material.
ThinkPad T14s Gen 3

Lenovo offers a comprehensive portfolio of end-to-end services to support and protect your investment—so you can focus on the job at hand, not IT.

Services

PREMIER SUPPORT
Provides direct access to skilled and experienced Lenovo technicians offering comprehensive hardware and software support. Gives you a consistent point of contact within Lenovo to ensure that your case resolution is professionally managed from start to finish.

BULK PACKAGING SERVICE
Bulk Packaging is an environmental packaging solution designed for multiple product types. Each package contains multiples of one like-type product to minimize the amount of material used without jeopardizing the integrity of packaging necessary to protect product in shipping process.

CO₂ OFFSET SERVICE
As an option with the hardware purchase, the Lenovo CO₂ Offset Service gives customers a simple and transparent way to give back to the environment by helping them offset the carbon emissions associated with their Lenovo PC. With it, Lenovo has calculated the carbon emissions of its PCs across their lifecycle, from manufacture and shipment, all the way through usage and disposal. Carbon offset credits are later purchased based on the calculated emissions of the specific device, and Lenovo’s carbon offset partner contributes them to one of several United Nations Climate Action projects.

Accessories

Lenovo Thunderbolt Dock Gen 2
Broadly compatible, this dock expands data, power, and video, providing one connection with no limitations.

Lenovo Professional Wireless Keyboard & Mouse Combo
Slim, wireless keyboard with responsive key feeling, adjustable tilt leg, numeric keypad, and spill resistant design. Full-size wireless ambidextrous mouse features five button design for four-way scrolling. Connect both using only one nano USB wireless receiver.

Lenovo 16.6-Inch Commuter Backpack
Lightweight and weather-proof backpack features a compartment for notebooks, electronics, and accessories, a wet/dry ventilation compartment for clothes and shoes, aback panel security pocket, trolley strap, and removable shoulder straps.
