Lenovo ThinkBook 16p Gen 4 and Lenovo Magic Bay Accessories

(Pre-release version for CES 2023)

**ThinkBook**

Built for Business. Designed for You.

Do the **Unthinkable.**
The world is experiencing an unprecedented change in the way it works. More and more employees prefer remote, or hybrid work to the office. So, having a mobile, versatile device is pretty much in demand. Lenovo ThinkBook 16p Gen 4 is incredibly versatile and made for on the go productivity.

With the latest Intel® processors, speedy memory, and storage, it is adaptable to any situation. Paired with the Lenovo Magic Bay detachable modular solutions, it adds a new dimension to remote work. Its set of clip-on solutions for wireless connectivity, a 4K webcam, and a handy personal lamp makes it easy to work anywhere, in the darkest environments, or in places with weak connectivity. The camera lets users record content, or host meetings from anywhere too.
The Magic of Modularity

Lenovo Magic Bay Light

When you’re working remotely, there’s always a chance you’ll be in an environment with poor lighting conditions. Power outages, too, could cause the same problem at home. Or you could be working late at night and don’t want to cause a disturbance. The Magic Bay Light handles this with ease. It’s a detachable light that you can use when you need extra illumination – in online meetings or working late into the night. With adjustable brightness, up to 150 Lux with a 0.5-meter radius. The Magic Bay Light also features an auto power-on that works when the device camera is turned on. The Magic Bay Light comes with a travel pouch to enhance the convenience of mobility.

Lenovo Magic Bay LTE

A reliable connection is essential to the modern workforce. As remote work gains traction, the ability to connect from anywhere, whether you’re taking a meeting, sending critical files across, uploading a vlog, video, or another design project. Magic Bay LTE ensures you’re never without a stable internet connection no matter where you go. Magic Bay LTE lets you keep connected via 4G hotspot when you’re in areas with spotty Wi-Fi, allowing easy, secure access to the internet from anywhere. It’s easy to carry around and connect via the 11-pin Pogo connector or USB-C. It’s always connected to the internet, so you face no downtime, and comes in an easy-to-carry pouch.

Lenovo Magic Bay 4K Webcam

The Magic Bay 4K Webcam is a detachable webcam designed as an upgrade to in-built device webcams. It boasts an impressive 4K resolution at 30 FPS and comes with autofocus and auto-framing features. It also has a dynamic field of view (65°, 78° and 90°), and adjustable viewing angles – all in an easy-to-use plug-and-play design. It helps, particularly when you need high-quality visuals in video conferences tackling video conferences from anywhere, and is designed to function in low light as well. The Magic Bay 4K Webcam is also secure to use, with a electronic privacy shutter to block out unwanted eyes. It is also capable of recording 4K video.
